*\$3,000 in grants given to Lighthouse
Central Florida*

JUNE 21, 2021

Lighthouse Central Florida, which provides vision rehabilitation services to those living with vision impairment or blindness throughout Central Florida, received two grants totaling \$3,000 from Paycom and Rotary Club of Maitland. The funds from Paycom's \$1,000 grant were used to create a virtual classroom critically needed to improve the effectiveness of Lighthouse's vision rehabilitation services being delivered remotely to blind or visually impaired people of all ages due to circumstances surrounding COVID-19. The funds from Rotary Club of Maitland's \$2,000 grant will be used for Lighthouse Central Florida's Early Intervention Services, Children's Program and Transition Program.
